

10 February 1983

MEMORANDUM FOR: Director of Central Intelligence  
Deputy Director of Central Intelligence

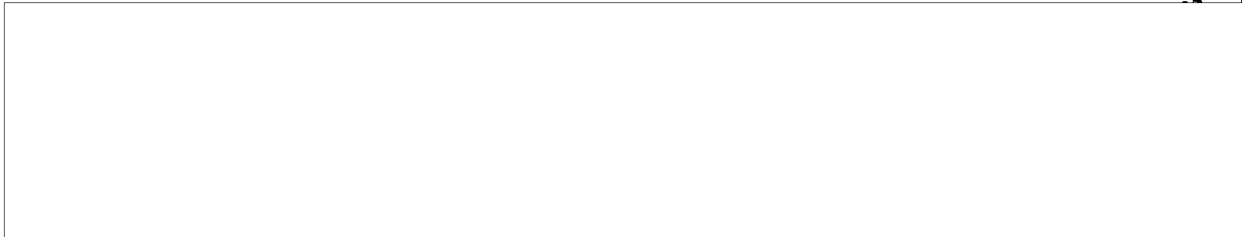

FROM: SA/DCI/IA

SUBJECT: Meeting with Secretary Weinberger,  
11 February 1983

1. The following items are on your agenda for tomorrow morning's meeting:

25X1

-- Central America/Caribbean.

-- Unclassified Paper on Soviet Bloc Activities.  
A copy of Constantine's 9 February draft is available and included in your package in case you wish to discuss it with Weinberger. The draft is still controlled pending final review by the Department of State.

-- Middle East.

-- SA-5s. As an item of continuing interest, you probably will want to discuss the latest information we have on the deployment of the SA-5 system. The Soviets appear to be particularly nervous about the possibility of an Israeli preemptive strike.

-- Lebanon/NSPG Meeting. Following last Friday's NSPG meeting, Judge Clark tasked the preparation of studies outlining the worse case scenarios and policies. You may wish to discuss this with Weinberger. For your discussion I have included some talking points and several memos on the Lebanese situation. Of key interest, of course, is Sharon's fate give the commission's report on the Palestinian massacres and the current debate in Begin's Cabinet. Preoccupation

with this issue may neutralize any desires Sharon has to take out the SA-5s.

- Sudan-Libya. Charlie Waterman reports on recent CPPG activities focusing on the Libyan threat to Sudan. You may wish to discuss this with Weinberger. One of the items being discussed is the deployment of AWACs for the support of the Egyptian F-4s in the defense of Sudan. Additional provocative naval activities off the coast of Libya are also being discussed. [redacted] 25X1
- Vice President's Trip/INF. You may wish to share some preliminary thoughts on the impact of the Vice President's trip, particularly regarding the European support or lack thereof for INF deployments. You will, of course, receive a briefing from the Vice President at the NSC meeting later in the day tomorrow. *You will have more info in your NSC book.*
- World Wide Testimony. You (DCI) may wish to brief Weinberger on the results of your testimony today before Addabbo's subcommittee. As you know, Weinberger briefed Addabbo's committee this week on the Defense budget. Given Ikle's interest yesterday in our analysis of the dollar cost of Soviet defense spending, we have included a copy of the DDI summary. I was told that Weinberger will be urged to raise this with you.

2. Given your (DCI) interest earlier this week in the meeting [redacted] with Helms and the testing of the new Soviet small solid ICBM, I thought you would want to query Weinberger regarding his perceptions of what the President's Commission on MX Deployment is likely to recommend. Weinberger's staff requested that we postpone this discussion given the fact that the commission has asked for an extension of its deadline. 25X1

3. Please let me know if there are any other issues that you wish to raise.
